Communities@Work

In-service Support and Customised Training

Your team, your place, your choice. We offer an extensive range of professional development and tailored workshops to meet the unique needs of your service. Customised training is a great way to build the quality and capacity of your service while increasing the knowledge and quality practices of your service and individual educators.

Customised training is offered in your own environment and accessible to your whole team. It not only brings about change in practices but also saves you money.

Our consultant's areas of expertise span across all quality areas and approved learning frameworks.
